BOY WITH A FORTUNE

A boy with a fortune is the boy who has one hundred dollars that he himself has saved. His fortune consists not alone of the money saved and what boy with a hundred dollars would not feel like a millionaire?—but of a valuable lesson learned.

Not only has he experienced the thrill of possession, but he has caught the thrift habit. He has learned to do without useless things. He no longer squanders his money. He has better judgment of values. doubtless a far better boy.

Has your boy started to save yet? If he has not, there is no better time to teach him to begin than now-at this bank.
